Bank Stock Price Trends (2019-2024)

A multi-bank view of stock responses to Federal Reserve interest rate decisions

This dashboard analyzes stock price trends of three major U.S. banks — JPMorgan Chase (JPM), Bank of America (BAC), and Goldman Sachs (GS) — from 2019 to 2024, particularly in relation to Federal Reserve rate hikes.

Key metrics show the latest stock prices, total market contributions, and annual performance. Interactive charts allow time-based exploration and bank-wise comparisons.

This helps stakeholders identify performance patterns, analyze trends around policy changes, and make more informed decisions.
